Action Deferred—ON PROPOSED ORDINANCE TO AMEND MUNICIPAL CODE BY ADDING NEW CHAPTER CONCERNING CONDOMINIUMS.

The Committee on Finance submitted the following report, which was, on motion of Alderman Simpson and Alderman Oberman, *Deferred* and ordered published:

CHICAGO, October 25, 1977.

To the President and Members of the City Council:

Your Committee on Finance, to which was referred a communication from the Department of Law dated October 20, 1977 transmitting a proposed ordinance authorizing the amendment of the Municipal Code of Chicago by adding Chapter 100.2 concerning condominiums having had the same under advisement, begs leave to report and recommend that Your Honorable Body pass the proposed ordinance transmitted herewith.

This recommendation was concurred in by a viva voce vote of the members of the committee.

Respectfully submitted,
(Signed) WILSON FROST,
Chairman.

The proposed ordinance transmitted with the foregoing committee report reads as follows:

Whereas, The City of Chicago is a home rule municipality, and, pursuant to the Illinois Constitution of 1970, it has authority to regulate for the protection of the public health, safety, morals and welfare; and

Whereas, The condominium form of property ownership has become increasingly popular in Chicago in recent years; and

Whereas, Growth in the use of this alternative form of property ownership has significant impact on the welfare and well-being of the citizens of Chicago; and

Whereas, Chicagoans rely on the protection of the Municipal Code of Chicago for its strong zoning, building, housing and consumer protection ordinances; and

Whereas, Prospective purchasers of condominium units have often been unable to obtain full disclosure of all information necessary to the decision to purchase; and

Whereas, The regulation of the sale and operation of condominiums is necessary for the protection and welfare of the citizens of the City of Chicago; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

Section 1. The Municipal Code of Chicago is hereby amended by adding a new Chapter to be numbered 100.2, containing Sections 100.2-1 through 100.2-9 as follows:

Southeast Corner of N. State and E. Goethe Sts. Designated as "Churchill Corner".

The Committee on Local Industries, Streets and Alleys submitted a report recommending that the City Council adopt the following proposed resolution (which was referred to the committee on September 28, 1977, C.J.P. p. 6055):

WHEREAS, The Citizens of our Nation and the City of Chicago are greatly concerned for the qualities and conditions of our physical and social environments; and

WHEREAS, These problems are so complex and critical that their solutions challenge our optimum public and institutional awareness, understanding and involvement; and

WHEREAS, Our awareness, understanding and involvement of these urgent environmental issues today will be enhanced by a historical perspective of environmental reforms in America and in our City; and

WHEREAS, The City of Chicago was from the 1870s through the early 1900s the proving ground for America's first generation of environmental laws and reforms; and

WHEREAS, These reforms which made Chicago an environmentally model city were achieved by a unique fusion of ideas from America's oldest urban culture, Boston, with the energies of its newest large city, Chicago, at a time when runaway epidemics of cholera, typhoid, tuberculosis and other environmentally communicated diseases wiped out our large percentages of population; at a time when fifty percent of the Nation's children died before adulthood; when thirty percent of our school children were made blind, deaf, deformed or debilitated by the lack of clean water, air, food and sanitation in our streets, homes, schools, stores and factories;

when men, women and children were ignorantly exploited as economic units of supply and consumption and when certain basic and unalienable rights were denied to the majority of our citizens; and

WHEREAS, The Nation's first ecologists, who spelled their interdisciplinary new science—oekology, introduced and incorporated the latest knowledge of science, mechanics and philosophy into the systems and structures of Chicago's physical and social environments; and

WHEREAS, These environmental improvements and protections which began in the 1870's with the design and construction of fire-resistant buildings equipped with new devices and methods to prevent and fight fires, established Chicago as the birthplace of modern architecture, parks and urban land use; also, introduced the modern scientific treatments of water and air supplies; established pure food laws and the Nation's most advanced systems for street and sewage sanitation; and advanced new ideas of energy use and conservation; and also introduced new philosophies and methods of public education; and established new institutions to elevate the condition of the poor; and introduced new medical ideas in treating physical and social pathologies among children; and extended the rights of quality higher education to women, and enabled this State to be among the first to extend the vote to women; and

WHEREAS, This great era of environmental reform reached its peak in the twenty-three years when Dr. Frank Spooner Churchill, and his wife Lucretia Mott Churchill, lived in Chicago and were active in these reforms; and

WHEREAS, Doctor Churchill began in 1892 to practice a new branch of medicine in Chicago, then called Pediatrics, and advanced the ecological idea that pure water, air and food are important to human health and development, and taught this knowledge to other Chicago doctors at Chicago Policlinic (now Henrotin Hospital) and Rush Medical College, and practiced these new ideas at Cook County, Presbyterian and Maurice Porter (now Children's Memorial) Hospitals, and as Medical Inspector for Chicago's pioneering Board of Health pressed for environmental reforms throughout the City and trained nurses and volunteers in his spare time and lectured at Jane Addams Hull House and won State and City laws to prevent adulterated foods—especially milk for babies—from being dumped into our markets from neighboring states; and also advanced the ideas of behavioral science in the treatment of children and became physician to Chicago's Juvenile Court, and Director of the Juvenile Psychopathic Institute and the Chicago Infant Welfare Society, and voluntary physician and patron of the new Francis W. Parker School, and Chairman of the Children's Section of the American Medical Association, and Editor-in-Chief of the American Journal of Diseases of Children, and President of the American Pediatric Society, and founded the Infant's Free Clinic at Children's Memorial Hospital where he was Chief of Staff in 1917; and

WHEREAS, His wife, Lucretia Mott Hallowell Churchill, great granddaughter of America's first feminist reformer, Lucretia Mott, was herself an early woman scientist, trained at M. I. T., who courageously organized and led environmental reforms of Chicago and Illinois factories, schools, hospitals and homes; and acquired for future generations model laws protecting child health and restricting child labor and exploitation and campaigned for anti-sweat shop legislation and advanced the cause for women's rights for which she was cited when Illinois became one of the first states to grant the vote to women; and

WHEREAS, The home kept by Dr. and Mrs. Churchill on the southeast corner of N. State Street and E. Goethe Street in Chicago was a national crossroad for the environmental reformers at the turn of the Century and became known as "Churchill Corner"; and

WHEREAS, The activities of these early environmentalists deserve commemoration, as both a reminder and encouragement for what our citizens and institutions can do to improve environmental conditions today and in the future; now, therefore,

Be It Resolved, That the Mayor and the Members of the City Council of the City of Chicago, duly assembled this 26th day of October, 1977, A.D., do hereby designate the southeast corner of N. State Street and E. Goethe Street in Chicago "Churchill Corner" as a historical site in recognition of the Oekologists, early environmentalists of the late 19th and early 20th centuries who met there and by their early achievements helped to make Chicago the environmental model City of this Nation.

WHEREAS, This body has duly considered the desirability of the creation of said mini-park and the request for alternative egress and ingress rights to the property owner abutting said areas; now, therefore,

The Grantee, its successors and assigns, shall indemnify and hold harmless Grantor for any injuries or damages arising out of the Grantee's acts or omissions in its use of that portion of the easement premises abutting and immediately to the east of the Grantee's premises (Parcel 1).

SECTION 2. The consideration to the City of Chicago for the granting of the easement as hereinabove set forth is the consent by Roth Incorporated, a Delaware corporation, the owner of the abutting land, to the extinguishment of ingress to and egress from said Parcel A by means of vehicular traffic from Garland Court and the restriction of said owner's present means of ingress to and egress from Parcel B (which parcel is also commonly known as "The Blackhawk Restaurant").

Resignation of Alderman Christopher B. Cohen.

Also the following communication signed by Alderman Christopher B. Cohen and filed in the City Clerk's office, which was *Placed on File.*

November 3, 1977.

DEAR MAYOR BILANDIC—I hereby resign as 46th Ward Alderman effective 11:15 a.m. today in order to accept appointment by Secretary of Health, Education and Welfare, Joseph A. Califano, Jr. as Principal Regional Official for HEW Region V headquartered here in Chicago.

Since my first election on February 23, 1971, it has been a genuine privilege to serve the residents of my ward and of our city. Your personal assistance helped me successfully achieve passage of legislation regarding abuses in the temporary help day labor industry, legislation regarding abuses in private auto towing companies and a budget amendment changing the aldermanic auto expense allowance to a broader one which is for aldermanic transportation expenses.

Ideas I favored which later became law under others' sponsorship include an increase in aldermanic expense accounts to give better service to constituents, a Chicago Mounted Police Force, a City Lottery (passed by the legislature state-wide) and permitting self service gasoline sales.

Also I introduced and saw passed thirteen ordinances repealing outmoded city laws. This latter accomplishment hopefully will result in my goal of a thorough and periodic revision and updating of the Municipal Code by a City Council Committee, by the Corporation Counsel or by another appropriate unit. Successes are enjoyable, but my failures have been several and I hope that you and future council members will work to pass a rule requiring that aldermen be given copies of ordinances, resolutions and other legislation before any vote is taken on them, a rule requiring that each piece of legislation receive an identifying bill number and a resolution memoralizing the Illinois General Assembly to transfer the 9 cent cultural institutions tax levy authority from the Chicago Park District to a larger jurisdiction such as the Cook County Board of Commissioners.

I hope both you and I will be successful in the new tasks we have undertaken this year and will continue our mutual respect and cooperation. I look forward to working with you.

Sincerely,
(Signed) CHRISTOPHER B. COHEN.

COMMITTEE ON CULTURAL AND ECONOMIC DEVELOPMENT.

Action Deferred—ON PROPOSED ORDINANCE CONCERNING DESIGNATION OF NAVY PIER AS "CHICAGO LANDMARK".

The Committee on Cultural and Economic Development submitted the following report, which was, on motion of Alderman Fifielski and Alderman Frost, *Deferred* and ordered published:

CHICAGO, November 7, 1977.

To the President and Members of the City Council:

Your Committee on Cultural and Economic Development having had under consideration a communication signed by Mr. William M. McLenahan, Director of the Chicago Commission on Historical and Architectural Landmarks (referred to your committee on September 28, 1977) to designate the structure that is known as Navy Pier as a Chicago Landmark, begs leave to recommend that your Honorable Body *Pass* the proposed ordinance, which is transmitted herewith.

This recommendation was concurred in by all members of the committee, with no dissenting vote.

Respectfully submitted,
(Signed) EDWIN P. FIFIELSKI,
Chairman.

The proposed ordinance transmitted with the foregoing committee report reads as follows:

Whereas, Pursuant to Chapter 21, Section 21-64 of the Municipal Code of Chicago, the Commission on Chicago Historical and Architectural Landmarks has determined that the structure known as the Navy Pier, located at Grand Avenue and Streeter Drive at Lake Michigan, Chicago, Illinois, is worthy of designation as a "Chicago Landmark"; and

Whereas, On the basis of a careful consideration of the history and architecture of the structure, the Commission has found that it meets the following criteria as set forth in Chapter 21, Section 21-64(b) of the Municipal Code of Chicago:

1) Its character, interest, or value as part of the development, heritage, or cultural characteristics of the City of Chicago, State of Illinois, or the United States.

2) Its identification with a person or persons who significantly contributed to the culture and development of the City of Chicago.

4) Its exemplification of the cultural, economic, social, or historic heritage of the City of Chicago.

7) Its identification as the work of an architect or master builder whose individual works has influenced the development of the City of Chicago.

9) Its relationship to other distinctive areas which are eligible for preservation according to a plan based on a historic, cultural, or architectural motif.

10) Its unique location or singular physical characteristic representing an established and familiar visual feature of a neighborhood, community, or the City of Chicago; and

Whereas, Navy Pier is one of Chicago's most familiar landmarks, having played an important and varied role in the history of the city and the lives of its citizens since it was opened in 1916; and

Whereas, Navy Pier reflects Daniel Hudson Burnham's idea that the lake shore "should be treated as park space to the greatest possible extent", the pier being built to house recreational as well as shipping facilities; and

Whereas, Navy Pier, originally known as Municipal Pier, was renamed in honor of the Chicagoans who had served in the United States Navy during the First World War; and

Whereas, During the Second World War, Navy Pier was used as a military training school, and later served as the Chicago campus of the University of Illinois and also served the City of Chicago as a traffic court; and

Whereas, Navy Pier first flourished from 1918 until about 1930 and was the site for recreational events such as plays and concerts, children's activities, swim meets, airplane and motorboat races, fireworks, and trade exhibitions, and two "Pageants of Progress" in 1921 and 1922; and

Whereas, Navy Pier was designed by Charles Sumner Frost, a noted Chicago architect who designed the Newberry Library and many University of Chicago buildings; and its structural engineer was Edward C. Shankland, an important Chicago engineer who designed the Fisher and Reliance Buildings; and

Whereas, Navy Pier's rehabilitation, under the auspices of the City of Chicago Department of Public Works Bureau of Architecture under the direction of City architect Jerome R. Butler, Jr., has already been undertaken and is continuing at a very high level of excellence. Mr. Butler's and the Bureau's work have received awards for Navy Pier's renovation from the American Institute of Architects, the American Institute of Architects' Chicago Chapter as well as its Illinois Council. In addition, awards were received from the Illinois Council, American Institute of Architects, for the Navy Pier experimental solar energy program, and it received the American Institute of Architects' Bartlett award for creating accessibility for the handicapped; and

Whereas, The Commission on Chicago Historical and Architectural Landmarks has concluded that Navy Pier is truly important to Chicago, and deserves to be preserved, protected, enhanced, rehabilitated, and perpetuated; and the Commissioner of Development and Planning of the City of Chicago and the City Council Committee on Cultural and Economic Development have concurred in the Commission's recommendation that Navy Pier be designated as a Chicago Landmark; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

Section 1. The structure known as Navy Pier, located on the publicly owned property situated east of Streeter Drive and contiguous to East Grand Avenue, formerly known as Municipal Pier and Pier No. 2 in Chicago, Illinois, is hereby designated a "Chicago Landmark" in accordance with the provisions of Chapter 21, Section 21-64(f) of the Municipal Code of Chicago.

Section 2. Notwithstanding Chapter 21, Section 21-64.1(a) of the Municipal Code of Chicago, no application for building permits for alteration, construction, reconstruction, demolition or addition need be approved by the Commission on Chicago Historical and Architectural Landmarks for such operations upon the one-story shed buildings extending from the east side of the entrance building to the west side of the terminal building.

The Commission on Chicago Historical and Architectural Landmarks is hereby directed to create a suitable plaque appropriately identifying said landmark and to affix said plaque to the property designated as a Chicago Landmark in accordance with the provisions of Section 21-64(f) of the Municipal Code of Chicago.

Section 4. The Commission on Chicago Historical and Architectural Landmarks is directed to comply with the provisions of Section 21-64(g) of the Municipal Code of Chicago.

Section 5. This ordinance shall take effect upon its passage.

A single or "combination" license may be issued to an applicant to permit him to conduct or operate the business of food purveyor and to sell milk at retail, not for consumption on the premises, in connection with such business of food purveyor on the same premises. This provision shall not apply to licenses for milk plants or milk receiving stations. The fee to be paid for single or "combination" license shall equal the sum of the fees which the applicant would be required to pay if separate licenses for each business were issued to him.

130-2.5. All foods to be used, prepared, cooked or displayed or sold, offered for sale or stored in a food establishment shall be from sources approved by the health authorities of the point of origin, and must be clean, wholesome and free from spoilage, free from adulteration and misbranding, and safe for human consumption.

No other foods which have been processed in a private home or other than in an approved food processing establishment shall be stored, used or kept for sale in a food establishment.

130-2.6. All food while being stored, prepared, displayed, or sold at a food establishment, or during transportation to such establishments shall be protected from contamination. The Board of Health shall publish regulations concerning the storage, preparation and sale of perishable or frozen foods and frozen desserts.

130-2.7. All food and drink shall be stored and sold so as to minimize the opportunities for contamination. The Board of Health shall publish regulations concerning the sanitary maintenance of food and drink which is stored or on display.

130-2.8. Such portions of said vehicles which are designed to contain food shall be at least eighteen inches above the surface of the public way while the vehicle is being used for the conveyance of food. Such vehicles shall be kept in clean and sanitary condition, and shall be protected from dust, flies, rodents, and other contamination. 130-2.9. A. It shall be unlawful for any person in any food establishment to use or to bring into or keep in such establishment with the intention of selling, storing, preparing, or offering for sale any food, as defined in this chapter, which is unclean, unwholesome, putrid, decayed, adulterated, poisoned, infected or in any manner rendered unsafe or unwholesome for human food. For the purpose of this chapter such foods shall be deemed unwholesome for human food if the same has been contaminated by flies or other insects, vermin, dust, dirt or other foreign contamination; if they contain any poisonous or deleterious or injurious ingredients in kind and quantities so as to render such articles injurious or detrimental to health; or if they contain the whole or part of any uninspected meat, poultry, milk or their by-products, or if such articles are or have been submerged in any solutions which are unclean, sour, putrid, or contaminated.

B. Cooked or prepared food, milk and milk products, non-dairy milk products, frozen desserts or similar products served, sold, or offered for sale, or kept with the intention of selling, shall not contain any excessive number of bacteria and shall show no excessive number of coliform organisms or any pathogenic bacteria, or shall not violate chemical or bacterial standards approved by the Department of Health for those foods.

C. It shall be the duty of every owner or operator of a food establishment to permit inspections to be made and, when required, to furnish samples of any foods kept, offered for sale, in any such establishment as often as may be deemed necessary to determine that the foods are free from adulteration, are not misbranded, do not contain an excessive number of microorganisms or their toxins. The owner or operator of a food establishment shall answer all reasonable and proper questions and furnish records of the sampled product. Such samples shall be examined or analyzed by or under the direction of said Department of Health, and a record of each such examination or analysis shall be made and kept in its office.

D. The Department of Health may, upon written notice to the owner or person in charge of the food establishment, place a "Held for Inspection" order on any food which the health authority determines or has probable cause to believe to be unwholesome or otherwise adulterated or misbranded. At the request of the owner of the food establishment, foods so held for inspection shall be permitted to be suitably stored pending analysis reports or voluntarily denaturated and disposed of under Department of Health supervision. It shall be unlawful for any person to remove the tag placed on the food by the Department of Health, nor shall such food containers be removed from the premises or destroyed without permission of the Department of Health except on order of a court of competent jurisdiction. The Department of Health may vacate the "Held for Inspection" order or may by written order direct the owner or person in charge of the food to denature or destroy such food or to bring it in compliance with the provisions of this chapter, or dispose of it for non-human use as may be approved by the Department of Health. Provided, however, that such an order of the Department of Health to denature or destroy such food shall be

stayed, if the order is appealed to a court jurisdiction within three days. Nothing in this section shall preclude any court action based upon the finding of unwholesome or adulterated foods.

130-2.10. No person affected with or carrying any disease in a communicable form, or affected with boils, infected wounds, sores, an acute respiratory infection or intestinal disorder shall work in any area of a food establishment in any capacity in which there is a likelihood of such person contaminating food or food-contact surfaces with pathogenic organisms, or transmitting disease to other individuals; and no person known or suspected of being affected with any such disease or condition shall be employed in such an area or capacity. If the person in charge of any food establishment suspects that any employee has contracted any disease in a communicable form, or has become a carrier of such disease, he shall notify the Department of Health immediately. The Department of Health may require each employee to submit urine and feces, or other necessary specimens for laboratory examination or other medical examination to determine the presence of disease.

130-2.11. When suspicion arises as to the probability of transmmission of infection from any food establishment employee, the Department of Health is authorized to require the following measures:

1. The immediate exclusion of the employee from all food establishments.

2. The immediate closing of the food establishment until the Department of Health determines that no further danger of disease outbreak exists.

3. Adequate medical examinations of the employee and his associates, with such laboratory examinations as may be deemed necessary under the circumstances.

It shall be the duty of every owner or operator of a food establishment who has knowledge of, or a physician who attends or prescribes for, and of every superintendent or person in charge of any hospital or caring for, any person suffering from or suspected of suffering from food poisoning or infection or any form of such poisoning or infection, either bacterial or chemical, to at once report this fact to the Department of Health and to thereafter submit to the Department of Health a written report stating the name and address of the person thus afflicted, the nature of the poisoning or infection and the source or probable source of the same.

130-2.12. All employees who enter food processing areas, who prepare food or who handle, in any manner, unwrapped or unenclosed foods or utensils or receptacles shall be required to maintain a high degree of personal cleanliness and to conform to hygienic practices. The Board of Health shall publish regulations requiring cleanliness and conformity with hygienic practices.

130-2.13. All equipment and utensils shall be so designed and of such material and workmanship as to be smooth, easily cleanable, and durable, and shall be in good repair; and the food-contact surfaces of such equipment and utensils shall, in addition, be easily accessible for cleaning, non-toxic, corrosion resistant, and relatively non-absorbent. Provided that, when approved by the Department of Health, exceptions may be made to the above material requirements for equipment, such as cutting boards, blocks, and bakers' tables. The Board of Health shall publish regulations requiring the sanitary maintenance of equipment and utensils.

130-2.14. No new food establishment shall be constructed nor shall any major alteration or replacement of existing equipment effecting the sanitary requirements of this chapter or the regulations of the Board of Health be permitted unless plans or complete drawings of this construction, alteration or replacement are submitted to the Department of Health and approved prior to such remodeling or construction.

130-2.15. In food purveyor establishments, there shall be adequate plumbing facilities that comply with all the requirements of the plumbing chapter of the Municipal Code of Chicago and the regulations published by the Board of Health.

130-2.16. All garbage and rubbish shall be stored, removed and disposed of in a manner approved by the Board of Health.

130-2.17. All necessary control measures shall be used to effectively minimize and eliminate the presence of rodents, flies, roaches and other vermin on the premises of all food establishments. The Board of Health shall publish such regulations as are necessary to ensure that the premises are kept in such a condition as to prevent the harborage or feeding of vermin.

130-2.18. The floors, walls and ceilings of all rooms in which food or drink is stored, sold, offered for sale, cooked or prepared, or in which utensils and equipment are washed shall be constructed and maintained in a manner prescribed by regulations of the Board of Health to ensure protection against contamination.

All rooms in which food and drink is prepared, or in which utensils are washed shall be well-lighted. The Board of Health shall establish such regulations as are necessary to ensure safe, adequate lighting.

All food establishments shall have adequate ventilation systems which comply with the applicable requirements of the ventilation and fire prevention codes of the City of Chicago and regulations published by the Board of Health.

130-2.19. Food establishment premises, including outdoor premises, shall be maintained in a clean, safe manner. Adequate facilities within every establishment shall be provided for the storage of employees' personal belongings. The Board of Health shall prescribe regulations for the maintenance of food establishments.

130-3. 130-3.1. It shall be unlawful for any person to engage in the business of a food dispenser establishment within the City of Chicago without first obtaining a license to do so.

A charitable, religious or educational institution not carried on for private gain or profit, which operates eating facilities in connection with the immediate carrying out of its charitable, religious or educational activities, shall be exempt from the payment of the foregoing license fee.

Every such license shall be posted in a conspicuous place in that part of the food dispenser establishment to which the public has access.

At the time of license application, the City Clerk shall issue to each applicant a copy of that portion of the Municipal Code of Chicago and a copy of the Board of Health Rules and Regulations relating to food dispensing establishments.

130-3.2. An application for a food dispenser's license shall be made in conformity with the general requirements of this code relating to applications for licenses. The applicant shall convey to the Department of Health such information as may be necessary in order to inform it fully as to the size and nature of the place to be used for the purpose of the business and the conditions, equipment, facilities for conducting the business therein.

Before any license shall be issued, and before any food may be dispensed the Department of Revenue shall notify the applicant that the Department of Health shall inspect and approve the premises for compliance with requirements of the Municipal Code of Chicago.

Before any license shall be issued for a food dispensing establishment having service accommodations in excess of 25, the Commissioner of Buildings shall cause an inspection of the premises to be made to determine that the minimum requirements of the Department of Building codes are complied with.

Effective July 1, 1978, each food dispenser establishment must be under the operational control of a registered certified person on a daily basis.

Effective January 1, 1979, each applicant for a food dispensing establishment license shall provide the Board of Health with evidence of a certificate of registration in food handling and sanitation issued by the Chicago Board of Health to members of his supervisory or managerial staff.

Every such certificate of registration shall be posted in a conspicuous place in that part of the food dispenser establishment to which the public has access.

A Certificate of Registration may be suspended or revoked by the Department of Health when the establishment under the control of such a holder of registration, repeatedly fails to comply with the Municipal Code of Chicago and the rules and regulations of the Board of Health pertaining to food dispensing establishments.

Prior to such suspension or revocation the holder may request a hearing to stay such action.

When an inspection reveals that the applicant and the establishment comply with all the provisions of the Municipal Code of Chicago and the Board of Health Rules and Regulations relating to food dispensing establishments, the Department of Health shall recommend approval for a license to the Department of Revenue.

A food dispensing establishment license shall not be transferred from one person to another person or from one place of business to another without an application made in conformity with the general requirement of this code and an inspection and recommendation for approval by the Chicago Department of Health to the Department of Revenue.

Honorable John C. Marcin,
City Clerk, City of Chicago:

The undersigned aldermen of the City of Chicago hereby call a special meeting of the City Council of the City of Chicago for Tuesday, November 22, 1977, at 9:00 A.M. for the sole and only purpose of considering a resolution to create a committee to investigate and to consider rescission of the July 13, 1977 taxi fare increase and whether to revoke taxi licenses, a copy of which is attached hereto, and for no other purpose whatsoever.

This call for a special meeting of the City Council is made at the direction of the following aldermen as authorized by law for the above mentioned purpose.

(Signed) Ross Lathrop (5th Ward)
(Signed) Martin J. Oberman (43rd Ward)
(Signed) Dick Simpson (44th Ward)

Special Committee Authorized to Conduct Review of Financial Data Presented to Committee on Local Transportation Regarding Fare Increase for Taxicabs.

Alderman Frost presented the following proposed substitute resolution:

Whereas, Section 28-30(b) of the Municipal Code allows for the increase in taxi fares only when a majority of the licensees' total operating expenses exceed 86% of the combined gross fares; and

Whereas, On July 13, 1977, the City Council enacted an ordinance establishing a schedule of taxi fares based on financial data compiled by the Yellow Cab Company and Checker Taxi Company; and

Whereas, It is now in the public interest to reexamine the data submitted for the purpose of determining its accuracy; now, therefore,

Be It Resolved, That the Chairman of the Committee on Finance is directed to appoint a special committee to conduct a review of all financial data presented to the Committee on Local Transportation in support of the ordinance adopted July 13, 1977, relating to an adjustment in taxi fares; and

Be It Further Resolved, That the Chairman of the Committee on Finance shall be the chairman of the special committee; and

Be It Further Resolved, That the special committee is authorized to appoint a counsel and that special committee shall employ one of the nationally recognized accounting firms, commonly known as the Big Eight, to conduct an audit of the financial records of Checker Taxi Company and Yellow Cab Company. Said audit shall be conducted for the purpose of determining whether the financial data submitted by Checker Taxi Company and Yellow Cab Company in connection with the July 13, 1977 fare adjustment was accurate and did justify, in accordance with the criteria set forth in Section 28-30(b) of the Municipal Code, the fare increase of July 13, 1977. Said audit shall include an examination of all relevant financial data, including but not limited to an examination of whether the data which they submitted to the City Council included a fair and reasonable accounting of transactions between those taxi companies and their affiliated companies; and

Be It Further Resolved, That the special committee is authorized to issue subpoenas and take sworn testimony; and

Be It Further Resolved, That said special committee shall recommend to the City Council such measures as it deems to be warranted by the evidence and any other action it deems to be necessary; and

Be It Further Resolved, That said special committee shall report to the City Council on the progress of its review no more than 30 days from the date of this resolution is adopted.

WHEREAS, the City of Chicago has a population of more than 25,000 and is, therefore a Home Rule Unit; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The Municipal Code of Chicago is amended in Chapter 7 thereof by inserting the following new Sections in Italics below:

Chapter 7, Section 75 through Section 79.

7-75. The City of Chicago, acting by its City Council, may from time to time, borrow temporary funds in advance of permanent financing to permit the interim financing of estimated costs and expenses necessary and incident to constructing extensions, improvements, or both, to the existing Chicago Water System, and in evidence of such borrowing, to issue its interim notes, which notes, both principal thereof and interest thereon, will be paid from the proceeds to be received from the sale of water revenue bonds of the City to be issued pursuant to the procedures provided for in Sections 7-67 to 7-74, inclusive, hereof, when and as such bonds are authorized and issued for the permanent financing of such extensions, improvements, or both, or from other moneys legally available for such purpose in the Water Fund of the City, and which said interim notes shall not in any event constitute an indebtedness of said City within the meaning of any constitutional or statutory provision or limitation on indebtedness which may be incurred and the interim notes shall not be payable from ad valorem taxes to be levied and extended against taxable property situated within the City. The procedures for the issuance of such interim notes shall be as substantially herein provided in Sections 7-76 through 7-79 of this Chapter.

7-76. The City Council shall adopt an ordinance approving an Interim Note Financing Agreement (hereafter referred to as the "Basic Agreement") providing for the temporary borrowing of funds in advance of permanent financing to permit the interim financing of estimated costs and expenses necessary and incident to the making of extensions, improvements or both, to the Chicago Water System, which Basic Agreement shall be negotiated by the City of Chicago acting by and through its Mayor and City Comptroller prior to its presentation to the City Council. After the form of such Basic Agreement has been submitted to and approved by the City Council, the Mayor and the City Comptroller shall be authorized to execute and sign such Basic Agreement on behalf of the City and the same shall be attested by the City Clerk.

Such Basic Agreement shall provide that no interim note or notes shall be issued thereunder to provide temporary borrowing for extensions, improvements, or both, unless the City Council shall have approved the project and the estimated cost thereof for which said note, or notes, are to be issued, by ordinance (the "Project Ordinance") after a public hearing thereon by the Finance Committee of the City Council and unless there has been a sufficient appropriation of funds by the City to permit the expenditure of the interim note proceeds on the project. Prior to the adoption of any such Project Ordinance, which Ordinance shall contain a description of the project or projects to be temporarily financed and the estimated costs thereof, a public hearing shall be held thereon by the Finance Committee of the City Council, pursuant to a notice given of such public hearing, such notice to refer generally to the project or projects to be temporarily financed by the issuance of interim notes and to be published at least once in a newspaper published in and having a general circulation within the City of Chicago, the date of such publication to be not less than 10 days prior to the date of the public hearing. It shall not be necessary that the Project Ordinance refer to or incorporate therein by reference detailed plans and specifications of such extensions, improvements, or both, or specifically describe the projects to be temporarily financed by the issuance of such interim note, or notes.

Each such interim note or notes shall be accompanied by a certificate identifying by a general description the approved project, representing that the proceeds of such interim note or notes will be used solely for such project, that such project and the estimated cost thereof have been approved by the City Council, by ordinance, after a public hearing held thereon by the Finance Committee of said City Council; and that there has been sufficient appropriation of funds by the City to permit the expenditure of the Interim Note Proceeds on the project. Said Project Ordinance shall further make a determination on behalf of the City that the construction of such extensions, improvements, or both, serves a public purpose for which the City may subsequently authorize and issue its Water Revenue Bonds, as authorized by the provisions of Sections 7-67 to 7-74, inclusive, hereof, and for which the City may subsequently authorize the expenditure of moneys legally available for such purpose in the Water Fund of the City.

Said Basic Agreement shall also authorize execution from time to time of the interim note or notes therein authorized on behalf of the City by being signed by the Mayor and by the City Comptroller and to be attested by the City Clerk, and by the respective proxies of said Mayor and City Comptroller, such interim note to be in such form as may be provided for in the Basic Agreement.

The Mayor and the City Comptroller may each designate another to act as their respective proxies and to affix their respective signatures to any such interim note, and in such case, each shall send to the City Council written notice of the person so designated by each, such notice stating the name of the person so selected to sign as proxy for the Mayor and the City Comptroller, respectively. A written signature of the Mayor or of the City Comptroller, respectively, executed by the person so designated underneath, shall be attached to each notice. Each notice, with the signature attached, shall be recorded in the Journal of the Proceedings of the City Council and then filed with the City Clerk. When the signature of the Mayor is placed on an interim note at the direction of the Mayor in the specified manner, the note, in all respects, shall be as binding on the City as if signed by the Mayor in person. When the Comptroller's signature is so affixed to an interim note at the Comptroller's direction, the note, in all respects, shall be as binding on the City as if signed by the Comptroller in person.

In case any official whose signature appears on the specified interim note ceases to hold his office before the delivery of the interim note to the purchaser, his signature nevertheless shall be valid and sufficient for all purposes, to the same effect as if he had remained in office until the delivery of the interim note.

The execution of any such interim notes as herein provided shall not cause any official signing the same on behalf of the City to be personally liable by reason of such signing and issuance thereof.

7-77. The interim note, or notes, shall be of the form and content as provided in the Basic Agreement, be dated as of the date of their execution and delivery, shall be expressed to mature on a definite payment date, which date shall be the same for all interim notes issued for a particular project and not to exceed 5 years from the date that the first interim note with respect to a project has been issued, and interest thereon at the rates of interest therein agreed upon shall be payable at the time of payment of the principal thereof. The interim notes shall be payable by the City and without notice to the holder at any time before maturity and at any financial institution which shall be designated by the City Comptroller.

The interim note, or notes, to be issued shall be made payable in the manner as provided in the Basic Agreement and shall contain such terms and conditions as shall be provided in such Basic Agreement, and such interim note, or notes, shall be limited obligations of the City, payable as to both principal thereof and interest thereon, only from the proceeds to be received from the sale of Water Revenue Bonds of the City to be issued pursuant to the procedures provided for in Sections 7-67 to 7-74, inclusive, hereof, when and as such bonds are authorized and issued for the permanent financing of such extensions, improvements, or both, or from other moneys legally available for such purpose in the Water Fund of the City.

The City and the holder, or holders, of the interim note, or notes, may mutually agree that the time of payment of any interim note, or notes, may be extended for a period of not to exceed 2 years beyond its stated maturity date, and evidence of such extension shall be noted on the face of such interim note so extended, together with the signatures of the Mayor and City Comptroller, and to be attested by the City Clerk, and also to be signed by an authorized representative of the other parties to the Basic Agreement. Such Basic Agreement shall further indicate that the payment of principal of and

interest on such interim note, or notes, for which permanent financing is being provided at that time, which must include all interim notes issued for a particular project if any are to be paid, but need not include all interim notes issued to provide temporary borrowing for other projects, shall be made simultaneously with the delivery to the purchaser of the Water Revenue Bonds to be authorized and issued by the City.

7-78. Whenever interim notes are issued pursuant to the provisions of the Basic Agreement, the rates charged by the City for water used shall be sufficient to provide, at the maturity date of such notes, revenues from the operation of the Water System in an amount and at the times which will permit the authorization and issuance of Water Revenue Bonds on a parity with the Water Revenue Bonds then outstanding under this Chapter in order to provide permanent financing for the projects authorized in and identified by the interim note or notes or will provide revenues sufficient to produce moneys legally available in the Water Fund of the City to pay the principal of and interest on such interim notes at maturity.

7-79. Pursuant to the authority granted by Section 6 of Article VII of the Constitution of Illinois 1970, the procedures hereby established for the issuance of interim notes payable from the proceeds of the sale of Water Revenue Bonds to be subsequently authorized and issued to pay the cost of making such extensions, improvements, or both, for which said interim notes were furnished or from other moneys legally available in the Water Fund of the City, as herein provided for, shall be controlling and shall be complied with by the City Council in borrowing of money through the issuance of such interim notes notwithstanding anything to the contrary contained in the provisions of the Illinois Municipal Code of 1961 and all acts amendatory thereof and supplementary thereto and any other laws of the State of Illinois.

SECTION 2. This ordinance shall be in full force and effect immediately upon its passage by the City Council of the City of Chicago and its approval by the Mayor.

Interim Note Financing Agreement

This Agreement, dated ....., 197.., is entered into between the City of Chicago, a home rule unit and a body politic and corporate (herein called the "City") and the banks named on the signature pages hereof (herein collectively called "Banks" and individually called "Bank");

WITNESSETH:

Whereas, the City is a body politic and corporate under the laws of the State of Illinois and a home rule unit under Article VII of the Constitution of the State of Illinois; and

Whereas, the City has determined to exercise its home rule power under the 1970 Constitution of the State of Illinois and to construct necessary extensions, improvements, or both, to the waterworks system of said City (hereafter referred to as the Chicago Water System) through the issuance of Water Revenue Bonds, the procedure to be followed in authorizing and issuing such bonds being contained in Sections 7-67 to 7-74, inclusive, of the Municipal Code of Chicago, which provisions are in full force and effect, or any other procedures which may be provided by law for the issuance of Water Revenue Bonds of the City; and

Whereas, the City has determined that it is desirable and in the public interest to arrange interim financing with respect to such projects by the issuance of interim notes to be authorized pursuant to an ordinance to be adopted by the City Council in the exercise by the City of its Home Rule Powers pursuant to Article VII of the 1970 Constitution of the State of Illinois and to evidence such loans to be made by the Banks under the terms of this Agreement the City will issue its interim notes, and the Banks are willing to make such loans and accept such interim notes (all such notes so issued hereunder being hereafter referred to as the "Interim Notes"):

Now, Therefore, in consideration of the mutual agreements herein contained, the parties hereto agree as follows:

1. *Representations.* To induce the Banks to accept the Interim Notes provided for herein, the City represents that:

(a) The City is a body politic and corporate created and existing under the laws of the State of Illinois and the 1970 Constitution of the State of Illinois; that pursuant to the provisions of Section 6(a) of Article VII of the 1970 Constitution, the City is a home rule unit and has full power and authority to enter into this Agreement, and to perform the provisions thereof which are hereinafter provided to be performed by the City.

(b) The City shall (prior to the date of the maturity of the individual Interim Notes) make all necessary arrangements to obtain financing for such Projects as are financed in whole or in part by Interim Notes issued hereunder (hereafter referred to as the "Projects") through the authorization, sale and issuance of Water Revenue Bonds which shall be limited and special obligations of the City, payable from the net revenues of the Chicago Water System on a parity with the outstanding Water Revenue Bonds of the City dated July 1, 1975 (hereafter referred to as the "Bonds") and which it is permitted to issue in the manner as provided by the provisions of Sections 7-67 to 7-74, inclusive, of the Municipal Code of Chicago, referred to in the preamble hereof, or which Bonds may be authorized in such other manner as may hereafter be provided by law.

(c) In the event that the Project may be abandoned or if, for any reason, Bonds are not or cannot be issued or cannot be issued in an amount sufficient to pay in full such Interim Notes, both principal thereof and interest thereon, then the City will make such provision as may be necessary to provide for the payment of such Interim Notes at maturity from money on hand and legally available for such purpose in the Water Fund of the City.

(d) When Interim Notes are issued hereunder the rates charged by the City for water used shall be sufficient to provide, at the maturity date of such Notes, revenues from the operation of the Water System in an amount and at the times which will permit the authorization and issuance of the Water Revenue Bonds referred to in subparagraph (b) hereof to provide permanent financing for the project for which such temporary financing was provided by the proceeds of the Interim Notes or will provide revenues sufficient to produce moneys legally available in the Water Fund of the City to pay the principal of and the interest on such Interim Notes at maturity. Said Interim Notes shall not in any event constitute an indebtedness of said City within the meaning of any constitutional or statutory provision or limitation on indebtedness which may be incurred and said Interim Notes shall not be payable from ad valorem taxes to be levied and extended against taxable property situated within the City.

(e) There is no litigation pending or to the knowledge of the City threatened which questions or would question or limit the right, power or authority of the City to enter into this Agreement, issue its Interim Notes under this Agreement, or authorize, sell and issue its Water Revenue Bonds or to perform any of its obligations under this Agreement or under any Interim Notes or Bonds.

2. *General Conditions Concerning Loans and Interim Notes.* Subject to the terms and conditions of this Agreement, each Bank for itself alone agrees to lend to the City on or before January 1, 1980, such Bank's proportion (determined by its percentage of the aggregate commitment) of such amounts, as when added to all amounts then borrowed by the City under this Agreement and still outstanding, shall not exceed in the aggregate $30,000,000 as the City may, from time to time, request for the purpose of temporary financing Projects; provided, however: (a) Loans shall be in multiples of $1,000 and of a minimum of at least $100,000; (b) The aggregate loans which any Bank shall at any one time be committed to loan to the City hereunder with respect to all Projects shall not exceed the amount set opposite such Bank's signature less the then aggregate outstanding loans hereunder to the City by such Bank. Each Interim Note hereunder shall be with respect to a single Project and shall be executed at the offices of the Bank on three (3) business days' notice. Each such Interim Note shall be in the form of Exhibit "A" attached hereto.

3. *Conditions of Loans and Issuance of Interim Notes.* The following shall be conditions precedent to the making of loans and the issuance of the Interim Notes:

(a) At the time of the making of the first loan and the issuance of the first Interim Notes with respect to each Project, the City shall deliver to each Bank the following, addressed to the Banks, and dated the date of such borrowing:

(i) A certified copy of an Ordinance adopted by the City authorizing and approving the execution and delivery by the City of this Agreement;

(ii) The opinion of Messrs. Chapman and Cutler of Chicago, Illinois, addressed to the City and each Bank, to the effect that: (A) The City is a home rule unit as defined by Article VII of the 1970 Constitution of the State of Illinois and constitutes a body politic and corporate of the State of Illinois pursuant to the laws of the State of Illinois; (B) The City has full power and authority and has taken all necessary action to enter into this Agreement; (C) The Interim Notes are authorized by the City and said Interim Notes are the valid and binding obligation of the City, enforceable according to their terms; and (D) Interest on the Interim Notes issued under this Agreement will be exempt from Federal Income Taxes under present laws, rules, regulations and decisions so long as the Interim Notes are not "arbitrage bonds" within the meaning of Section 103(c) of the Internal Revenue Code of 1954, as amended, and the regulations thereunder.

(iii) A Certificate of the Mayor and the City Comptroller of the City in the form of Exhibit "B", attached hereto, to establish the following:

(A) Identifying the Project for which the issuance of Interim Notes is requested and representing that the proceeds of such borrowing are to be used solely for such Project: (B) Representing that there is no litigation pending or to the knowledge of the said officials threatened nor is any legislation pending which questions or would limit the right, power or authority of the City to enter into this Agreement, to issue its Interim Notes under the provisions of this Agreement, or to authorize, sell and issue its Water Revenue Bonds for the payment of such Interim Notes, or to perform any of its obligations under this Agreement: (C) Advising whether or not the City is in default in any of its covenants herein set forth or set forth in any of said Interim Notes or set forth in any Water Revenue Bonds or Waterworks certificates of indebtedness of the City heretofore issued and then outstanding; and (D) Stating that the City Council has, by ordinance, after public hearing held by the Finance Committee thereof, approved the Project or Projects, and the estimated cost thereof, for which said Interim Notes are to be issued at a meeting duly held and that there is a sufficient appropriation of funds by the City to permit the expenditure of the Interim Note proceeds on the Project or Projects.

(b) At the time of the making of each subsequent Loan and each subsequent issuance of an Interim Note hereunder pursuant to this Agreement concerning a Project for which Interim Notes have previously been issued, the City, acting by the Mayor and the City Comptroller, shall deliver to each Bank properly executed certificates executed by said officials and certifying as of the date that such borrowing is to be made as to the matters referred to in Section 3(a)(iii) hereof, together with a properly executed Interim Note in the form of Exhibit "A" and the opinion of Messrs. Chapman and Cutler of Chicago, Illinois, covering the additional borrowing and in the manner referred to in 3(a)(ii). The said certificate shall also state the aggregate amount of Interim Notes previously issued and outstanding with respect to the Project as of the date that such additional borrowing is made.

(c) All Interim Notes with respect to any Project shall mature on the same day but not more than Five (5) years after the date that the first Interim Note with respect to such Project shall have been issued. Such Interim Notes may be once renewable to mature not more than two years after the date that the first Interim Notes with respect to such Project shall have matured. Evidence of such extension shall be noted on the face of such Interim Note so extended, such statement to have affixed thereto the signatures of the Mayor, and the City Comptroller and to be attested by the City Clerk, and to be also signed and attested by authorized officers of the Bank which is the holder of said Interim Note.

(d) Notwithstanding any other provisions of this Agreement, no loan shall be required to be made hereunder if any condition precedent is not satisfied or if any event of default, or any event which upon the service of notice and the lapse of time would be an event of default, or either has occurred and is continuing.

(e) Whenever Water Revenue Bonds are issued in the manner as provided in Sections 7-67 to 7-74, inclusive, of the Municipal Code of Chicago, or bonds are issued in any other manner then provided by law to provide permanent financing for a particular Project or Projects, all Interim Notes previously executed and delivered to the Banks under the terms of this Agreement with respect to such Project shall be paid and cancelled simultaneously with the issuance of such Bonds.

(f) The City shall so long as any of the Interim Notes herein authorized remain outstanding, keep proper books and records and accounts, separate and apart from all other records and accounts showing correct and complete entries of all transactions of the Water System. The City further covenants and agrees that it will prepare unaudited statements of the Revenues and Expenditures of the Water System for each of the last three quarterly fiscal periods of the fiscal year of the City and year end statements will be provided by the Comptroller accompanied by a certificate or opinion to be made by an independent firm of certified public accountants, showing the receipts and disbursements for and on account of the Water System at the close of such fiscal year and that such audited annual report, in addition to whatever matters may be thought proper by the accountant to be included therein shall, without limiting the generality of the foregoing, include the following:

(i) A statement in detail of the income and expenditures of the Water System for such fiscal year.

(ii) A balance sheet as of the end of the fiscal year.

A copy of each of such unaudited statements and balance sheets and such audited annual report as described above shall be furnished by the City to the holder of any of the Notes at his request. The City shall furnish annually to each holder of any of the Notes a report of the number of customers served by the Water System at the end of the year, the number of metered customers at the end of the year, and the number of unmetered customers at the end of the year, and the quantity of water pumped.

4. *Interim Notes Evidencing Borrowings.*

(a) Borrowings for each Project hereunder by the City shall be evidenced by Interim Notes of the City in the form of Exhibit "A" hereto attached, with appropriate spaces, and dated the date of the borrowing. Each such Interim Note shall be payable to the order of the Bank which is the holder of such Interim Note. For each borrowing both Banks shall receive Interim Notes of an equal amount.

(b) Each Interim Note shall be executed in the name of the City by the Mayor, by the City Comptroller, or by their respective proxies in the manner and as provided by Section 7-76 of the Municipal Code of Chicago, and shall be attested by the Clerk of the City and the seal of the City shall be affixed thereto.

(c) The failure of the City to complete any Project or the abandonment by the City of any Project for any reason whatsover shall not affect the obligation of the City to pay in full, both as to principal and interest, the Interim Notes issued with respect to such Project or Projects, in accordance with their terms and this Agreement.

(d) Each Interim Note shall be a limited and special obligation of the City, payable (both principal and interest to date of payment):

(i) From proceeds to be received through the authorization, sale and issuance of Water Revenue Bonds of the City which the City is permitted to issue in the manner as provided by Sections 7-67 to 7-74, inclusive, of the Municipal Code of Chicago, which provisions are presently effective, or which bonds may be authorized in such other manner as may hereafter be provided by law, but only from the proceeds of such bonds as are issued for the purpose of providing permanent financing for particular projects designated in the proceedings authorizing the issuance of such bonds or, from moneys on hand and legally available for such purpose in the Water Fund of the City. Simultaneously with the issuance of any such bonds, the said Interim Notes to be paid from the proceeds thereof, both as to principal thereof and interest thereon, shall be paid from the proceeds to be received from the sale of such bonds and such Interim Notes so paid shall be cancelled and surrendered to the City. Upon payment of any of such Interim Notes from moneys on hand and legally available for such purpose in the Water Fund, such Interim Notes shall be cancelled and surrendered to the City.

(ii) In the event that the Project may be abandoned or if, for any reason, Water Revenue Bonds are not or cannot be issued or cannot be issued in an amount sufficient to pay in full such Interim Notes, both principal thereof and interest thereon, from money on hand and legally available for such purpose in the Water Fund.

Moneys held in the Water Fund for the payment of reasonable expenses of operation and maintenance of the Chicago Water System, for current Annual Debt Service Requirements and in the Debt Service Reserve Fund as provided and defined in the Ordinance adopted by the City Council on June 26, 1975, authorizing the issuance of the outstanding Water Revenue Bonds shall not be deemed moneys legally available in the Water Fund for the purpose of paying the principal of and interest on said Interim Notes and moneys in the Rehabilitation and Improvement Reserve Fund of the Water Fund shall only be deemed to be legally available in the Water Fund for the purpose of paying the principal of and interest on said Interim Notes if the requirements contained in subparagraph (3) of the fourth paragraph of Section 12 of said Ordinance adopted by the City Council on June 26, 1975, hereinabove referred to, are complied with, and moneys shall only be deemed to be legally available as surplus funds in the Water Fund for the purpose of paying the principal of and interest on said Interim Notes if the requirements contained in the sixth paragraph of said Section 12 of said Ordinance are complied with;

(iii) Such Interim Notes shall not in any event constitute an indebtedness of the City and shall not be payable from ad valorem taxes to be levied and extended against taxable property within the City or from any other source other than those referred to in (i) and (ii) hereof.

5. *Interest.* Each Interim Note evidencing loans made hereunder shall bear interest from the date of issuance of such Interim Note to maturity, payable at maturity, at a rate per annum equal to the lesser of 7% per annum or 60% of the rate per annum being charged by the Bank holding such Interim Note on the date of the request for issuance of such Interim Note and thereafter from time to time for 90-day unsecured loans made at its banking house in Chicago, Illinois, to commercial customers of the highest credit rating; provided, however, that if so long as the interest on the Interim Notes shall not be exempt from Federal Income Taxes, the Interim Notes shall bear interest at 7% per annum. So long as there are any Interim Notes outstanding hereunder the Banks shall give prompt notice to the City Comptroller of any change in the rate of interest to be charged to the City. Interest on all Interim Notes shall be computed on a 360-day basis.

6. *City's Right to Prepay the Interim Notes.* The City may, from time to time, without notice and without premium or penalty, prepay any Interim Note, in whole or in part. Any such prepayment shall be accompanied by payment of accrued interest on the principal amount so prepaid to the date of such prepayment. Any partial payment of any such Interim Note shall be evidenced by notation on the face thereof to indicate the date of such prepayment, the amount thereof and the amount allocated to payment of interest thereon to date of prepayment and the balance of such prepayment applied to payment of the principal thereof and signed by the City Comptroller and signed and attested by proper officers of the Bank.

7. *Application of Payments.*

(a) All prepayments and other payments by the City with respect to any Project shall be applied to the Interim Note or Notes issued with respect to such Project, first to interest and then to principal of such Interim Notes, in the order in which they shall have been issued.

(b) All prepayments and other payments by the City with respect to any Project shall be made in equal amounts to each Bank.

8. *Covenants.* The City hereby covenants and agrees with the Banks that it shall expend the proceeds of each Interim Note solely for the purposes listed in the Certificate with respect to each Project accompanying such Interim Note and the City further covenants and agrees with the Banks that prior to completion of each particular Project, or as soon after completion of a particular Project as reasonably possible, it will use its best efforts to arrange for the permanent financing of such Project and the payment of principal of and interest on any and all Interim Notes which may have been issued under the terms of this Agreement for the temporary financing of such Project.

9. *Events of Default.* If one or more of the following events of default occur:

(a) Default in the payment of principal of, or interest on, any Interim Notes;

(b) Default by the City in the payment of any other indebtedness or obligation for borrowed money when the same becomes due and payable;

(c) Any representation made by the City herein is or becomes untrue in any material respect, or any schedule, statement, resolution, report, certificate, notice or writing furnished by the City to the Banks is untrue in any material respect on the date as of which the facts set forth are stated or certified;

(d) The existence of the City shall be terminated by proper legislation, or a decision by a court of competent jurisdiction which has become final and not subject to further review shall terminate the existence of the City or shall, in the opinion of the Banks, prevent the City from carrying out its obligations under this Agreement; or

(e) Default in the performance of any of the City's agreements herein set forth (and not constituting an event of default under any of the preceding subsections of this Section 9) and continuance of such default for thirty (30) days after notice thereof to the City from the Banks, then either of the Banks may declare the obligation to make loans for any or all of the Projects hereunder to be terminated, whereupon the obligation of the Banks to make loans hereunder shall immediately terminate as to each such Project.

10. *General.*

(a) No official member, officer, agent or employee of the City shall be liable personally on any Interim Note by reason of the issuance thereof.

(b) This Agreement shall be binding upon and shall inure to the benefit of: (i) the City, its successors and assigns; and (ii) the Banks, and their successors and assigns, and shall inure to the benefit of each endorsee or assignee of the Interim Notes or any interest therein.

(c) Whenever possible each provision of this Agreement shall be interpreted in such manner as to be effective and valid under Illinois law, but if any provision of this Agreement shall be prohibited by or invalid under such law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement.

(d) This Agreement may be executed in any number of copies and by the different parties on separate counterparts; provided, however, each counterpart shall be executed by the City and the Banks. When counterparts executed by all the parties shall have been lodged with the Banks, this Agreement shall become effective.

They should be familiar with the local area of employment to the extent of being knowledgeable of local subway, bus and cab services and fares, transportation to and from the airport, train and bus stations.

   d. Students shall be trained in the facilities and services provided at the airport and be familiar with the functions of the Federal Inspection Agencies.

   e. Participants will work as assigned in the Federal Inspection Area and the International Arrivals area, and may be utilized between flight arrivals in other airport areas when their services are not needed in the Federal Inspection areas. 5. LISTING OF EMPLOYMENT OPENINGS

(This clause is applicable pursuant to 41 CFR 50-250 if this contract is for $10,000 or more and will generate 400 or more man-days of employment.)

(a) The Contractor agrees that all employment openings of the Contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occurring at an establishment of the Contractor other than the one wherein the contract is being performed but excluding those of independently operated corporate affiliates, shall, to the maximum extent feasible, be offered for listing at an appropriate local office of the State employment service system wherein the opening occurs and to provide such periodic reports to such local office regarding employment openings and hires as may be required.

(b) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment source or effort and shall involve only the normal obligations which attach to the placing of a bona fide job order but does not require the hiring of any job applicant referred by the employment service system.

(c) The periodic reports required by paragraph (a) of this clause, shall be filed at least quarterly with the appropriate local office or, where the Contractor has more than one establishment in a State, with the central office of that State employment service. As long as the Contractor is contractually bound to these provisions and has so advised the State employment service system, there is no need to advise the State system of subsequent contracts. (e) This clause does not apply (1) to the listing of employment openings which occur outside of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands, and (2) to contracts with State and local governments.

(f) This clause does not apply to openings which the Contractor proposes to fill from within his own organization or to fill pursuant to a

customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.

(g) As used in this clause:

(1) "All employment openings" includes, but is not limited to, openings which occur in the following job categories: Production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical; and executive, administrative, and professional openings which are compensated on a salary basis of less than $18,000 per year. (4) "Man-day of employment" means any day during which an employee performs more than 1 hour of work.

(h) The Contractor agrees to place this clause (excluding this paragraph (h)) in any subcontract directly under this contract. (FPR 1-12.1102-2)

(FPR 1-7.101-19)

8. COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee. (FPR 1-1.503)

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to small business concerns that the Contractor finds to be consistent with the efficient performance of this contract. (FPR 1-1.710-3(a))

10. UTILIZATION OF LABOR SURPLUS AREA CONCERNS

(The provisions of this clause shall be applicable only if the amount of this contract exceeds $5,000)

(a) It is the policy of the Government to award contracts to labor surplus area concerns that (1) have been certified by the Secretary of Labor (hereafter referred to as certified-eligible concerns with first or second preferences) regarding the employment of a proportionate number of disadvantaged individuals and have agreed to perform substantially (i) in or near sections of concentrated unemployment or underemployment or in persistent or substantial labor surplus areas or (ii) in other areas of the United States, respectively, or (2) are noncertified concerns which have agreed to perform substantially in persistent or substantial labor surplus areas, where this can be done consistent with the efficient performance of the contract and at prices no higher than are obtainable elsewhere. The Contractor agrees to use his best efforts to place his subcontracts in accordance with this policy.

(b) In complying with paragraph (a) of this clause and with paragraph (b) of the clause of this contract entitled "Utilization of Small Business Concerns", the Contractor in placing his subcontracts shall observe the following order of preference: (1) certified-eligible concerns with a first preference which are also small business concerns; (2) other certified-eligible concerns with a first preference; (3) certified-eligible concerns with a second preference which are also small business concerns; (4) other certified-eligible concerns with a second preference; (5) persistent or substantial labor surplus area concerns which are also small business concerns; (6) other persistent or substantial labor surplus area concerns; and (7) small business concerns which are not labor surplus area concerns. (FPR 1-1.805-3)

(b) The Contractor agrees to use his best efforts to carry out this policy in the award of his subcontracts to the fullest extent consistent with the efficient performance of this contract. As used in this contract, the term "minority business enterprise" means a business, at least 50 percent of which is owned by minority group members or, in case of publicly owned businesses, at least 51 percent of the stock of which is owned by minority group members. For the purposes of this definition, minority group members are Negroes, Spanish-speaking American persons, American-Orientals, American-Indians, American-Eskimos, and American Aleuts. Contractors may rely on written representations by subcontractors regarding their status as minority business enterprises in lieu of an independent investigation. (FPR 1-1310-2(a))

12. CONTRACTING OFFICER'S TECHNICAL REPRESENTATIVE (COTR)

Any Contractor requests for changes shall be referred to the Contracting Officer directly or through the COTR. No such changes shall be made without the expressed prior authorization of the Contracting Officer. The

COTR may designate assistant COTR's to act for him by naming such assistants in writing and transmitting a copy of such designation through the Contracting Officer to the Contractor.

(c) The name and address of the COTR is included in the contract document. The COTR may be changed by the Government at any time, but notification of the change, including the name and address of the successor COTR, will be promptly provided to the Contractor by the Contracting Officer in writing. (DCC MAR 72)

13. ASSIGNMENT OF CLAIMS

(a) Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Unless otherwise provided in this contract, payments to an assignee of any moneys due or to become due under this contract shall not, to the extent provided in said Act, as amended, be subject to reduction or setoff. (The preceding sentence applies only if this contract is made in time of war or national emergency as defined in said Act and is with the Department of Defense, the General Services Administration, the Atomic Energy Commission, the National Aeronautics and Space Administration, the Federal Aviation Agency, or any other department or agency of the United States designated by the President pursuant to Clause 4 of the proviso of Section 1 of the Assignment of Claims Act of 1940, as amended by the Act of May 15, 1951, 65 Stat. 41.)

(b) In no event shall copies of this contract or of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret", "Secret", or "Confidential", be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive the same. However, a copy of any part or all of this contract so marked may be furnished, or any information contained therein may be disclosed, to such assignee upon the prior written authorization of the Contracting Officer. (FPR 1-30.703)

14. FEDERAL, STATE, AND LOCAL TAXES

(a) Except as may be otherwise provided in this contract, the contract price includes all applicable Federal, State, and local taxes and duties.

(b) Nevertheless, with respect to any Federal excise tax or duty on the transactions or property covered by this contract, if a statute, court decision, written ruling, or regulation takes effect after the contract date, and - -

(1) Results in the Contractor being required to pay or bear the burden of any such Federal excise tax or duty or increase in the rate thereof which would not otherwise have been payable on such transactions or property, the contract price shall be increased by the amount of such tax or duty or rate increase: PROVIDED, That the Contractor, if requested by the Contracting Officer, warrants in writing that no amount for such newly imposed Federal excise tax or duty or rate increase was included in the contract price as a contingency reserve or otherwise; or

(2) Results in the Contractor not being required to pay or bear the burden of, or in his obtaining a refund or drawback of, any such Federal excise tax or duty which would otherwise have been payable on such transactions or property or which was the basis of an increase in the contract price, the contract price shall be decreased by the amount of the relief, refund, or drawback, or that amount shall be paid to the Government, as directed by the Contracting Officer. The contract price shall be similarly decreased if the Contractor, through his fault or negligence or his failure to follow instructions of the Contracting Officer, is required to pay or bear the burden of, or does not obtain a refund or drawback of, any such Federal excise tax or duty.

(c) No adjustment pursuant to paragraph (b) above will be made under this contract unless the aggregate amount thereof is or may reasonably be expected to be over $100.

(d) As used in paragraph (b) above, the term "contract date" means the date set for the bid opening, or if this is a negotiated contract, the date of this contract. As to additional supplies or services procured by modification to this contract, the term "contract date" means the date of such modification.

(e) Unless there does not exist any reasonable basis to sustain an exemption, the Government, upon request of the Contractor, without further liability, agrees, except as otherwise provided in this contract, to furnish evidence appropriate to establish exemption from any tax which the Contractor warrants in writing was excluded from the contract price. In addition, the Contracting Officer may furnish evidence to establish exemption from any tax that may, pursuant to this clause, give rise to either an increase or decrease in the contract price. Except as otherwise provided in this contract, evidence appropriate to establish exemption from duties will be furnished only at the discretion of the Contracting Officer.

(f) The Contractor shall promptly notify the Contracting Officer of matters which will result in either an increase or decrease in the contract price, and shall take action with respect thereto as directed by the Contracting Officer. (FPR 1-11.401-1(c))

15. DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above; PROVIDED, That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law. (FPR 1-7.101-12)

16. PAYMENT OF INTEREST ON CONTRACTOR'S CLAIMS

(a) If an appeal is filed by the contractor from a final decision of the contracting officer under the disputes clause of this contract, denying a claim arising under the contract, simple interest on the amount of the claim finally determined owed by the Government shall be payable to the contractor. Such interest shall be at the rate determined by the Secretary of the Treasury pursuant to Public Law 92-41, 85 Stat. 97, from the date the contractor furnishes to the Contracting Officer his written appeal to the date of (1) a final judgment by a court of competent jurisdiction, or (2) mailing to the contractor of a supplemental agreement for execution either confirming completed negotiations between the parties or carrying out a decision of a board of contract appeals.

(b) Notwithstanding (a), above, (1) interest shall be applied only from the date payment was due, if such date is later than the filing of appeal, and (2) interest shall not be paid for any period of time that the contracting officer determines the contractor has unduly delayed in pursuing his remedies before a board of contract appeals or a court of competent jurisdiction. ADDITIONAL GENERAL PROVISIONS

1. CHANGES

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in the definition of services to be performed, and the time and place of performance thereof. If any such change causes an increase or decrease in the cost of, or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change, provided, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim assorted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed. (DOC MAR 72)

2. INSPECTION

The Government, through any authorized representatives, has the right, at all reasonable times, to inspect, or otherwise evaluate the work performed. If any inspection or evaluation is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require his subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work. (DOC MAR 72)

3. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT--OVERTIME COMPENSATION

This contract, to the extent that it is of a character specified in the Contract Work Hours and Safety Standards Act (40 USC 327-333), is subject to the following provisions and to all other applicable provisions and exceptions of such Act and the regulations of the Secretary of Labor thereunder.

(a) Overtime requirements. No Contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers, mechanics, apprentices, trainees, watchmen, and guards shall require or permit any laborer, mechanic, apprentice, trainee, watchman, or guard in any workweek in which he is employed on such work to work in excess of 8 hours in any calendar day or in excess of 40 hours in such workweek on work subject to the provisions of the Contract Work Hours and Safety Standards Act unless such laborer, mechanic, apprentice, trainee, watchman, or guard receives compensation at a rate not less than one and one-half times his basic rate of pay for all such hours worked in excess of 8 hours in any calendar day or in excess of 40 hours in such workweek, whichever is the greater number of overtime hours.

(b) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the provisions of paragraph (a), the Contractor and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer, mechanic, apprentice, trainee, watchman, or guard employed in violation of the provisions of paragraph (a) in the sum of $10 for each calendar day on which such employee was required or permitted to be employed on such work in excess of 8 hours or in excess of his standard workweek of 40 hours without payment of the overtime wages required by paragraph (a).

(c) Withholding for unpaid wages and liquidated damages. The Contracting Officer may withhold from the Government Prime Contractor, from any moneys payable on account of work performed by the Contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the provisions of paragraph (b).

(d) Subcontracts. The Contractor shall insert paragraphs (a) through (d) of this clause in all subcontracts, and shall require their inclusion in all subcontracts of any tier.

(e) Records. The Contractor shall maintain payroll records containing the information specified in 29 CFR 516.2(a). Such records shall be preserved for 3 years from the completion of the contract. (FPR 1-12.303)

4. PRICING OF ADJUSTMENTS

When costs are a factor in any determination of a contract price adjustment pursuant to the "Changes" clause or any other provision of this contract, such costs shall be in accordance with the contract cost principles and procedures in Part 1-15 of the Federal Procurement Regulations (41 CFR 1-15) in effect on the date of this contract. (FPR 1-7.101-37)

5. TERMINATION FOR CONVENIENCE OF THE GOVERNMENT

(a) The performance of work under this contract may be terminated by the Government in accordance with this clause in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interest of the Government. Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective.

(b) After receipt of a Notice of Termination, and except as otherwise directed by the Contracting Officer, the Contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the Notice of Termination;

(2) Place no further orders or subcontracts for materials, services, or facilities, except as may be necessary for completion of such portion of the work under the contract as is not terminated;

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the Notice of Termination;

(4) Assign to the Government, in the manner, at the times, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(5) Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final for all the purposes of this clause;

(6) Furnish to the Government, at the time and as directed by the Contracting Officer, the completed or partially completed "Subject Data," as defined in the Rights in Data clause, and reports which would have been required to be furnished to the Government if this contract had been completed.

(7) Complete performance of such part of the work as shall not have been terminated by the Notice of Termination.

(c) After receipt of a Notice of Termination, the Contractor shall submit to the Contracting Officer his termination claim, in the form and with certification prescribed by the Contracting Officer. Such claim shall be submitted promptly, but in no event later than one year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer upon request of the Contractor made in writing

within such one-year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such one-year period or any extension thereof. Upon failure of the Contractor to submit his termination claim within the time allowed, the Contracting Officer may, subject to any review required by the contracting egency's procedures in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Subject to the provisions of paragraph (c), and subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the total or partial termination of work pursuant to this clause, which amount or amounts may include a reasonable allowance for profit or adjustment for loss, on work done: Provided, That such agreed amount or amounts, exclusive of settlement costs, shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount. Nothing in paragraph (e) of this clause, prescribing the amount to be paid to the Contractor in the event of failure of the Contractor and the Contracting Officer to agree upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, shall be deemed to limit, restrict, or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the Contractor pursuant to this paragraph (d).

(e) In the event of the failure of the Contractor and the Contracting Officer to agree as provided in paragraph (d) upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, the Contracting Officer shall determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amounts determined as follows:

(1) The total of --

(i) The costs incurred in the performance of the work terminated, including initial costs and preparatory expense allocable thereto;

(ii) The cost of settling and paying claims arising out of the termination of work under subcontracts or orders, as provided in paragraph (b)(5) above, which are properly chargeable to the terminated portion of the contract (exclusive of amounts paid or payable on account of supplies or materials delivered or services furnished by subcontractors or vendors prior to the effective date of the Notice of Termination, which amounts shall be included in the costs payable under (i) above; and

(iii) A sum, as profit on (1) above, determined by the Contracting Officer pursuant to Subpart 1-8.303 of the Federal Procurement Regulations (41 CFR 1-8.303), in effect as of the date of execution of this contract, to be fair and reasonable: Provided, however, That if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, no profit shall be included or allowed under this subdivision (iii) and an appropriate adjustment shall be made reducing the amount of the settlement to reflect the indicated rate of loss determined by the Contracting Officer pursuant to Subpart 1-8.303 of the Federal Procurement Regulations (41 CFR 1-8.303), in effect as of the date of execution of this contract; and

(2) The reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to this contract.

The total sum to be paid to the Contractor under (1) of this paragraph (e) shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated.

(f) Any determination of costs under paragraph (c) or (e) hereof shall be governed by the principles for consideration of costs set forth in Subpart 1-15.2 of the Federal Procurement Regulations (41 CFR 1-15.2) as in effect on the date of this contract.

(g) The Contractor shall have the right to appeal, under the clause of this contract entitled "Disputes," from any determination made by the Contracting Officer under paragraph (c) or (e) above, except that, if the Contractor has failed to submit his claim within the time provided in paragraph (c) above and has failed to request extension of such time, he shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (c) or (e) above, the Government shall pay to the Contractor the following: (1) if there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer; or (2) if any appeal has been taken, the amount finally determined on such appeal.

(h) In arriving at the amount due the Contractor under this clause, there shall be deducted (1) all unliquidated advance or other payments on account theretofore made to the Contractor, applicable to the terminated portion of this contract; (2) any claim which the Government may have against the Contractor in connection with this contract; and (3) the agreed price for, or the proceeds of sale of, any materials, supplies, or other acquired by the Contractor or sold, pursuant to the provisions of this clause, and not otherwise recovered by or credited to the Government.

(i) If the termination hereunder be partial, prior to the settlement of the terminated portion of this contract, the Contractor may file with the Contracting Officer a request in writing for an equitable adjustment of the price or prices specified in the contract relating to the continued portion of the contract (the portion not terminated by the Notice of Termination), and such equitable adjustment as may be agreed upon shall be made in such price or prices.

(j) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on accounts against costs incurred by the Contractor in connection with the terminated portion of this contract whenever, in the opinion of the Contracting Officer, the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand, together with interest computed at the rate of 6% per annum for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: Provided, however, that no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until 10 days after the date of such retention or disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

(k) Unless otherwise provided for in this contract, or by applicable statute, the Contractor, from the effective date of termination and for a period of three years after final settlement under this contract, shall preserve and make available to the Government at all reasonable times at the office of the Contractor, but without direct charge to the Government, all his books, records, documents, and other evidence bearing on the costs and expenses of the Contractor under this contract and relating to the work terminated hereunder, or, to the extent approved by the Contracting Officer, photographs, microphotographs, or other authentic reproduction thereof. (DOC MAR 72)

6. DEFAULT

(a) The Government may, subject to the provisions of paragraph (c) below, by written notice of default to the Contractor, terminate the whole or any part of this contract in any one of the following circumstances:

(1) If the Contractor fails to perform the services within the time specified herein or any extension thereof; or

(2) If the Contractor fails to perform any of the other provisions of this contract, or so fails to make progress as to endanger perform-

ance of this contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure.

(b) In the event the Government terminates this contract in whole or in part as provided in paragraph (a) of this clause, the Government may procure, upon such terms and in such manner as the Contracting Officer may deem appropriate, services similar to those so terminated, and the Contractor shall be liable to the Government for any excess costs for such similar services: Provided, That the Contractor shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

(c) Except with respect to defaults of subcontractors, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule or other performance requirements.

(d) If this contract is terminated as provided in paragraph (a) of this clause, the Government, in addition to any other rights provided in this clause, may require the Contractor to deliver to the Government, in the manner and to the extent directed by the Contracting Officer, any of the completed or partially completed "Subject Data" as defined in the Rights in Data clause. The Government shall pay the Contractor the contract price, if separately stated, for completed services accepted by the Government and the amount agreed upon by the Contractor and the Contracting Officer for (1) completed services for which no separate price is stated; (2) partially completed work; and (3) Subject Data described above which is accepted by the Government. Failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(e) If, after notice of termination of this contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, or that the default was excusable under the provisions of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the Government, be the same as if the notice of termination had been issued pursuant to such clause. If, after notice of termination of this contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, and if this contract does not contain a clause providing for termination for convenience of the Government, the contract shall be equitably adjusted to compensate for such termination and the contract modified accordingly; failure to agree to any such adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(f) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

(g) As used in paragraph (c) of this clause, the terms "Subcontractor" and "Subcontractors" mean subcontractor(s) at any tier. (DOC MAR 72)

7. RENEGOTIATION

(a) To the extent required by law, this contract is subject to the Renegotiation Act of 1951 (50 USC App. 1211, et seq.) as amended, and to any subsequent act of Congress providing for the renegotiation of contracts. Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of Congress heretofore or hereafter enacted. Subject to the foregoing this contract shall be deemed to contain all the provisions required by Section 104 of the Renegotiation Act of 1951, and by any such other act, without subsequent contract amendment specifically incorporating such provisions.

(b) The Contractor agrees to insert the provisions of this clause, including this paragraph (b) in all subcontracts, as that term is defined in Section 103 of the Renegotiation Act of 1951, as amended. (DOC MAR 72)

8. KEY PERSONNEL

(a) It has been determined that the individual(s) named in the schedule of this contract are necessary for the successful performance of this contract. No diversion or replacement of these individual(s) shall be made by the Contractor without the written consent of the Contracting Officer: Provided, that the Contracting Officer may ratify in writing such diversion or replacement and such ratification shall constitute the consent of the Contracting Officer required by this clause.

(b) The Contractor agrees that whenever for any reason, one or more of these individual(s) are unavailable for performance under this contract, the Contractor agrees to replace such individual(s) with an individual(s) of substantially equal abilities and qualifications. In this connection, the Contractor shall submit to the COTR, in duplicate, a resume giving the full name, title, date and place of birth, qualifications, experience, and salary history, for all successor or new personnel prior to assignment of such personnel to perform work under the contract, so that the Contracting Officer may, on the advice of the COTR, decide whether or not such successor meets the qualifications of the personnel to be diverted or replaced, or in the case of new personnel, whether or not they are qualified to perform work assigned, and advise the Contractor accordingly. (DOC MAR 72)

9. ACCESS TO RECORDS AND RIGHT TO AUDIT

The Contractor agrees that the Secretary of Commerce or his duly authorized representative shall, until the expiration of three years after final payment under this contract, or the time periods for the particular records specified in 41 CFR Part 1-20, whichever expires earlier, have access to and the right to examine any books, documents, papers, and records of the Contractor involving transactions related to this contract. The Contractor further agrees to require all subcontractors, if any, under this contract, to agree to the "Access to Records and Rights to Audit" clause as provided herein for subcontracts in excess of $2,500. (DOC MAR 72)

10. SAFETY AND ACCIDENT PREVENTION

When the contract involves the performance of any work on premises which are under the direct control of the Government, the Contractor shall (i) conform to all local safety rules and requirements as are in effect on the date of this contract, and (ii) take such additional precautions as the Contracting Officer may reasonably require for safety and accident prevention purposes. The Contractor agrees to take all reasonable steps and precautions to prevent and preserve the lives and health of Contractor and Government personnel performing or in any way coming in contact with the performance of this contract on such premises. Any violation of such rules and requirements, unless promptly corrected, shall be grounds for termination of the contract. (DOC MAR 72)

ADDENDUM TO GENERAL PROVISIONS

The clause entitled "Listing of Employment Openings" contained in the General Provisions of this contract is hereby deleted and the clause given below substituted therefor. If the contract incorporates PD-GP-8-1, the clause given below is added thereto.

Supplement GP-EH(6-76) Previous Editions Obsolete

LISTING OF EMPLOYMENT OPENINGS

(This clause is applicable pursuant to 41 CFR 50-250 if this contract is for $2,500 or more.)

(a) The contractor agrees, in order to provide special emphasis to the employment of qualified disabled veterans and veterans of the Vietnam era, that all suitable employment openings of the contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occuring at an establishment other than the one wherein the contract is being performed but excluding those of independently operated corporate affiliates, shall be offered for listing at an appropriate local office of the State employment service system wherein the opening occurs and to provide such reports to such local office regarding employment openings and hires as may be required: Provided, That if this contract is for less than $10,000 or if it is with a State or local government the reports set forth in paragraphs (c) and (d) are not required.

(b) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment service or effort and shall involve the normal obligations which attach to the placing of a bona fide job order, including the acceptance of referrals of veterans and nonveterans. This listing of employment openings does not require the hiring of any particular job applicant or from any particular group of job applicants, and nothing herein is intended to relieve the contractor from any requirements in any statutes, Executive orders, or regulations regarding nondiscrimination in employment.

(c) The reports required by paragraph (a) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or, where the contractor has more than one establishment in a State, with the central office of the State employment service. Such reports shall indicate for each establishment (i) the number of individuals who were hired during the reporting period, (ii) the number of those hired who were disabled veterans, and (iii) the number of those hired who were nondisabled veterans of the Vietnam era. The contractor shall submit a report within 30 days after the end of each reporting period wherein any performance is made under this contract. The contractor shall maintain copies of the reports submitted until the expiration of one year after final payment under the contract, during which time they shall be made available, upon request, for examination by any authorized representatives of the contracting officer or of the Secretary of Labor.

(d) Whenever the contractor becomes contractually bound by the listing provisions of this clause, he shall advise the employment service system in each State wherein he has establishments of the name and location of each such establishment in the State. The contractor may advise the State system when it is no longer bound by this contract clause.

(e) This clause does not apply to the listing of employment openings which occur and are filed outside of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands.

The term includes full-time employment, temporary employment of more than 3 days duration, and part-time employment. It does not include openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement.

(2) "Appropriate office of the State employment service system" means the local office of the Federal-State national system of public employment offices with assigned responsibility for serving the area of the establishment where the employment opening is to be filled, including the District of Columbia, the Commonwealth of Puerto Rico, Guam, and Virgin Islands.

(3) "Openings which the contractor proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the contractor's own organization (including any affiliates, subsidiaries, and parent companies), and includes any openings which the contractor proposes to fill form regularly established "recall" or "rehire" lists.

(4) "Openings which the contractor proposes * * * to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside of a special hiring arrangement, including openings which the contractor proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the contractor and representatives of his employees.

(5) "Disabled veteran" means a person entitled to disability compensation under laws administered by the Veterans Administration for disability rated at 30 percentum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in line of duty.

(h) If an disabled veteran or veteran of the Vietnam era believes that the contractor (or any first-tier subcontractor) has failed or refuses to comply with the provisions of this contract clause relating to giving special emphasis in employment to veterans, such veteran may file a complaint with the veterans' employment representative at a local State employment service office who will attempt to informally resolve the complaint and then refer the complaint with a report on the attempt to resolve the matter to the State office of the Veterans' Employment Service of the Department of Labor. Such complaint shall then be promptly referred through the Regional Manpower Administrator to the Secretary of Labor who shall investigate such complaint and shall take such action thereon as the facts and circumstances warrant consistent with the terms of this contract and the laws and regulations applicable thereto.

(i) The contractor agrees to place this clause (excluding this paragraph (i) in any subcontract directly under this contract.

A single or "combination" license may be issued to an applicant to permit him to conduct or operate the business of food purveyor and to sell milk at retail, not for consumption on the premises, in connection with such business of food purveyor on the same premises. This provision shall not apply to licenses for milk plants or milk receiving stations. The fee to be paid for single or "combination" license shall equal the sum of the fees which the applicant would be required to pay if separate licenses for each business were issued to him.

130-2.5. All foods to be used, prepared, cooked or displayed or sold, offered for sale or stored in a food establishment shall be from sources approved by the health authorities of the point of origin, and must be clean, wholesome and free from spoilage, free from adulteration and misbranding, and safe for human consumption.

No other foods which have been processed in a private home or other than in an approved food processing establishment shall be stored, used or kept for sale in a food establishment.

130-2.6. All food while being stored, prepared, displayed, or sold at a food establishment, or during transportation to such establishments shall be protected from contamination. The Board of Health shall publish regulations concerning the storage, preparation and sale of perishable or frozen foods and frozen desserts.

130-2.8. Vehicles used by food establishments for the carrying or transportation of foods shall be so constructed that the portions of the vehicle which contain food shall be covered so that no dust or

dirt will settle on the food. Such portions of said vehicles which are designed to contain food shall be at least eighteen inches above the surface of the public way while the vehicle is being used for the conveyance of food. Such vehicles shall be kept in clean and sanitary condition, and shall be protected from dust, flies, rodents, and other contamination. 130-2.9. A. It shall be unlawful for any person in any food establishment to use or to bring into or keep in such establishment with the intention of selling, storing, preparing, or offering for sale any food, as defined in this chapter, which is unclean, unwholesome, putrid, decayed, adulterated, poisoned, infected or in any manner rendered unsafe or unwholesome for human food. For the purpose of this chapter such foods shall be deemed unwholesome for human food if the same has been contaminated by flies or other insects, vermin, dust, dirt or other foreign contamination; if they contain any poisonous or deleterious or injurious ingredients in kind and quantities so as to render such articles injurious or detrimental to health; or if they contain the whole or part of any uninspected meat, poultry, milk or their by-products, or if such articles are or have been submerged in any solutions which are unclean, sour, putrid, or contaminated.

B. Cooked or prepared food, milk and milk products, non-dairy milk products, frozen desserts or similar products served, sold, or offered for sale, or kept with the intention of selling, shall not contain any excessive number of bacteria and shall show no excessive number of coliform organisms or any pathogenic bacteria, or shall not violate chemical or bacterial standards approved by the Department of Health for those foods.

C. It shall be the duty of every owner or operator of a food establishment to permit inspections to be made and, when required, to furnish samples of any foods kept, offered for sale, in any such establishment as often as may be deemed necessary to determine that the foods are free from adulteration, are not misbranded, do not contain an excessive number of microorganisms or their toxins. The owner or operator of a food establishment shall answer all reasonable and proper questions and furnish records of the sampled product. Such samples shall be examined or analyzed by or under the direction of said Department of Health, and a record of each such examination or analysis shall be made and kept in its office.

D. The Department of Health may, upon written notice to the owner or person in charge of the food establishment, place a "Held for Inspection" order on any food which the health authority determines or has probable cause to believe to be unwholesome or otherwise adulterated or misbranded. At the request of the owner of the food establishment, foods so held for inspection shall be permitted to be suitably stored pending analysis reports or voluntarily denaturated and disposed of under Department of Health supervision. It shall be unlawful for any person to remove the tag placed on the food by the Department of Health, nor shall such food containers be removed from the premises or destroyed without permission of the Department of Health except on order of a court of competent jurisdiction. The Department of Health may vacate the "Held for Inspection" order or may by written order direct the owner or person in charge of the food to denature or destroy such food or to bring it in compliance with the provisions of this chapter, or dispose of it for non-human use as may be approved by the Department of Health. Provided, however, that such an order of the Department of Health to denature or destroy such food shall be stayed, if the order is appealed to a court jurisdiction within three days. Nothing in this section shall preclude any court action based upon the finding of unwholesome or adulterated foods.

130-2.10. No person affected with or carrying any disease in a communicable form, or affected with boils, infected wounds, sores, an acute respiratory infection or intestinal disorder shall work in any area of a food establishment in any capacity in which there is a likelihood of such person contaminating food or food-contact surfaces with pathogenic organisms, or transmitting disease to other individuals; and no person known or suspected of being affected with any such disease or condition shall be employed in such an area or capacity. If the person in charge of any food establishment suspects that any employee has contracted any disease in a communicable form, or has become a carrier of such disease, he shall notify the Department of Health immediately. The Department of Health may require each employee to submit urine and feces, or other necessary specimens for laboratory examination or other medical examination to determine the presence of disease.

130-2.11. When suspicion arises as to the probability of transmmission of infection from any food establishment employee, the Department of Health is authorized to require the following measures:

1. The immediate exclusion of the employee from all food establishments.

2. The immediate closing of the food establishment until the Department of Health determines that no further danger of disease outbreak exists.

3. Adequate medical examinations of the employee and his associates, with such laboratory examinations as may be deemed necessary under the circumstances.

It shall be the duty of every owner or operator of a food establishment who has knowledge of, or a physician who attends or prescribes for, and of every superintendent or person in charge of any hospital or caring for, any person suffering from or suspected of suffering from food poisoning or infection or any form of such poisoning or infection, either bacterial or chemical, to at once report this fact to the Department of Health and to thereafter submit to the Department of Health a written report stating the name and address of the person thus afflicted, the nature of the poisoning or infection and the source or probable source of the same.

130-2.12. All employees who enter food processing areas, who prepare food or who handle, in any manner, unwrapped or unenclosed foods or utensils or receptacles shall be required to maintain a high degree of personal cleanliness and to conform to hygienic practices. The Board of Health shall publish regulations requiring cleanliness and conformity with hygienic practices.

130-2.13. All equipment and utensils shall be so designed and of such material and workmanship as to be smooth, easily cleanable, and durable, and shall be in good repair; and the food-contact surfaces of such equipment and utensils shall, in addition, be easily accessible for cleaning, non-toxic, corrosion resistant, and relatively non-absorbent. Provided that, when approved by the Department of Health, exceptions may be made to the above material requirements for equipment, such as cutting boards, blocks, and bakers' tables. The Board of Health shall publish regulations requiring the sanitary maintenance of equipment and utensils.

130-2.14. No new food establishment shall be constructed nor shall any major alteration or replacement of existing equipment effecting the sanitary requirements of this chapter or the regulations of the Board of Health be permitted unless plans

or complete drawings of this construction, alteration or replacement are submitted to the Department of Health and approved prior to such remodeling or construction.

130-2.15. In food purveyor establishments, there shall be adequate plumbing facilities that comply with all the requirements of the plumbing chapter of the Municipal Code of Chicago and the regulations published by the Board of Health.

130-2.17. All necessary control measures shall be used to effectively minimize and eliminate the presence of rodents, flies, roaches and other vermin on the premises of all food establishments. The Board of Health shall publish such regulations as are necessary to ensure that the premises are kept in such a condition as to prevent the harborage or feeding of vermin.

130-2.18. The floors, walls and ceilings of all rooms in which food or drink is stored, sold, offered for sale, cooked or prepared, or in which utensils and equipment are washed shall be constructed and maintained in a manner prescribed by regulations of the Board of Health to ensure protection against contamination.

Every such license shall be posted in a conspicuous place in that part of the food dispenser establishment to which the public has access.

At the time of license application, the City Clerk shall issue to each applicant a copy of that portion of the Municipal Code of Chicago and a copy of the Board of Health Rules and Regulations relating to food dispensing establishments.

Before any license shall be issued for a food dispensing establishment having service accommodations in excess of 25, the Commissioner of Buildings shall cause an inspection of the premises to be made to determine that the minimum requirements of the Department of Building codes are complied with.

Effective July 1, 1978, each food dispenser establishment must be under the operational control of a registered certified person on a daily basis.

Effective January 1, 1979, each applicant for a food dispensing establishment license shall provide the Board of Health with evidence of a certificate of registration in food handling and sanitation issued by the Chicago Board of Health to members of his supervisory or managerial staff.

Every such certificate of registration shall be posted in a conspicuous place in that part of the food dispenser establishment to which the public has access.

Prior to such suspension or revocation the holder may request a hearing to stay such action.

When an inspection reveals that the applicant and the establishment comply with all the provisions of the Municipal Code of Chicago and the Board of Health Rules and Regulations relating to food dispensing establishments, the Department of Health shall recommend approval for a license to the Department of Revenue.

A food dispensing establishment license shall not be transferred from one person to another person or from one place of business to another without an application made in conformity with the general requirement of this code and an inspection and recommendation for approval by the Chicago Department of Health to the Department of Revenue.
